CHRIST CHURCH COMMUNITY HUB INFORMATION SHEET

Please read this Information Sheet in conjunction with our Conditions of Hire

Care of the Church Premises

You must take good care of the Church and Graveyard during your event and leave it undamaged and in a clean and tidy condition. Please see the attached checklist of things to be done and checked at the end of your hire. We reserve the right to withhold all or some of the security deposit you have paid should we consider that the Church has not been left in an appropriate condition.

The maximum occupancy of the premises and the opening hours are as stated in the Standard Conditions of Hire.

There is no admission at any time to the Chancel and Organ areas which are specifically excluded from your hire area.

Sale of Alcohol

If you wish to sell alcohol at your event, you must seek permission from the trustees before applying to the Council for a Temporary Event Notice which you will require even if you are employing a contractor with their own licence **to sell** alcohol. The sale of alcohol is deemed to take place if an alcoholic drink is included in the price of admission.

Plan of the Church

A plan of the Church is displayed on the noticeboard and shows the location of the fire emergency exits and equipment and the utilities' controls. Please familiarise yourself with this plan before your event.

Opening and Closing the Church

A representative, from our booking team, will greet you at the start of your hire period and will inform you of the arrangements to close the church at the end of your hire period. After your hire period has finished, please ensure that you carry out the checks set out in the attached 'Post-hire checklist'.

Guests, outside caterers and contractors must not occupy the premises before the start time of the hire period and must vacate the premises before the end of the hire period. Failure to comply with this will result in forfeiture of any security deposit.

Fire Procedures

Make it clear by announcement at the start of your function and point out the person in charge who would issue instructions relating to fire or other emergency evacuation procedures, should there be a fire or other emergency. The Fire Evacuation Procedure is displayed on the noticeboard inside church.

In the event of the fire or gas alarm sounding, the Church must be evacuated in an orderly manner using the appropriate signed exits as directed by the person in charge, and you **must follow the Emergency Evacuation Plan for use as a hall/not a church activity (see noticeboard either by the main front door if using the Nave or in the hallway next to the Meeting Room)** If calling the emergency services you must quote **CH64 2TL, Christ Church Willaston**. Please do not waste time quoting other information unless requested

At the time of the emergency, occupants must gather either at the Lych Gate or the Elm Green Graveyard Gate where there are emergency assembly signs.

In the event of a false alarm, please follow the Emergency Evacuation Plan for use as a hall/not a church activity (see noticeboard)

Please note that smoke will trigger the fire alarm and you must not, therefore, deliberately release smoke, e.g. as part of disco effects.

Please inform the contact names on the Emergency Evacuation Plan for use as a hall/not a church activity (see noticeboard) immediately in the event of the fire alarm going off, *for any reason*, so that they can arrange for the alarm to be reset.

Location and Use of Fire Equipment for Hirers

The location of fire exits, and fire extinguishers is shown on the plan on the notice board inside the church. The person in charge of your function must take note of the fire panel, fire exits and fire extinguishers before the premises are occupied and the manner of opening fire doors must be made known to your guests.

Car Parking

There is street parking outside the church and one disabled space on the Village Green. Please be aware of any parking notices as the church cannot be held responsible for any parking fines. Please ask your guests to leave quietly at the close of the event. Car doors banging and loud talk are disturbing to local residents.

Heating

The Nave is heated by a hot water system of underfloor heating and radiators which are preset. Please do **not** try to adjust them.

For any hire requiring the premises to be warm, the heating system will have been switched on in sufficient time for the temperature to have reached a suitable level by the start of the hire time.

The Meeting Room is heated by an electric heater.
