Blunsdon Sewage Treatment

Works Upgrade

Hello,

I'm writing to let you know that, starting in the next couple of weeks, we will begin essential upgrade works at the Sewage Treatment Works in West Hill, Lower Blunsdon.

The aim of this project is to improve the site's treatment processes so that the amount of phosphorus discharged back into the water system is significantly reduced, protecting water quality and wildlife. These upgrades will make the treatment process more efficient and help protect the local environment for the future.

How will I be affected?

From the **29th of Sept 2025** there will be increased vehicle movements of construction traffic in and out of site, this is so we can deliver the necessary construction materials and will only be during working hours.

While we're working, there might be an increase in noise, but we'll do our best to keep disruption to an absolute minimum.

When we're working?

Our working hours during this period will be **Monday to Friday 7:30am to 18:00pm**. If that changes, we'll let you know in advance.

We plan to have the work finished by the end of **November 2026**.

Queries or concerns?

You can also get in touch with us on 0800 316 9800, selecting option one and quoting the reference **BB01306835**. If you're a business customer, you may wish to contact your Retailer for any additional information relating to our work.

Kind Regards,

Rupert
